### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Anthoula Pomrening on April 26, 2005.

The application has been amended as follows:

In claim 1, line 4, please change "the frame" to --the lower frame--;

In claim 19, line 4, please change "the frame" to --the lower frame--.

2. The following is an examiner's statement of reasons for allowance: The primary reason for the allowance of claims in this application is that the prior art of record does not disclose or suggest a rack for a pickup truck comprising: a rack frame including an upper frame section, a lower frame section including at least two bar members extending horizontally across the lower frame section and a pair of upstanding members positioned inwardly from the ends of the bar members, and a pair of tubular members attached to the upstanding members of the lower frame section, wherein the upper frame section mates with the tubular members of the lower frame section to adjust the height of the rack, in combination with the other elements recited. The closest prior art is Jayne (US Patent 4,867,497). Jayne discloses a rack with a lower rack section including two horizontal bar members extending across the lower frame section with a pair of upstanding members positioned inwardly from the ends of the bar members. Although it would have been obvious to one of ordinary skill in the art at the time of the invention to make the

upper section of Jayne a separate and telescoping member, it would not have been obvious to do that by adding a pair of tubular members which are attached to the upstanding members.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
